

US Route 20 (Columbia Turnpike) Bicycle, Pedestrian and Transportation Improvements Public Informational Meeting

ABOUT THE PROJECT

The City of Rensselaer is currently planning bicycle and pedestrian improvements along US Route 20 (Columbia Turnpike) between the Rensselaer City Line and Broadway. The work will include the construction of sidewalks to create a continuous facility along both sides of the roadway, replacement of pedestrian ramps and restriping the roadway to meet current bicycle and pedestrian facility design standards. The project will also include widening of US Route 20 between Rensselaer Avenue and Aiken Avenue, improvements at the Aiken Avenue intersection, and improvements in the roadway median between Aiken Avenue and Broadway.

WHAT WILL HAPPEN AT THE MEETING?

- Meet project team members
- Hear about the project
- Provide your input
- See plans for the project

ABOUT THE MEETING

Monday April 8, 2013
Rensselaer City Hall
62 Washington Street
Rensselaer, NY 12144
For a map of the project corridor and meeting location, see reverse side.

Presentation

6:30 – 7:00 PM

WHO TO CONTACT

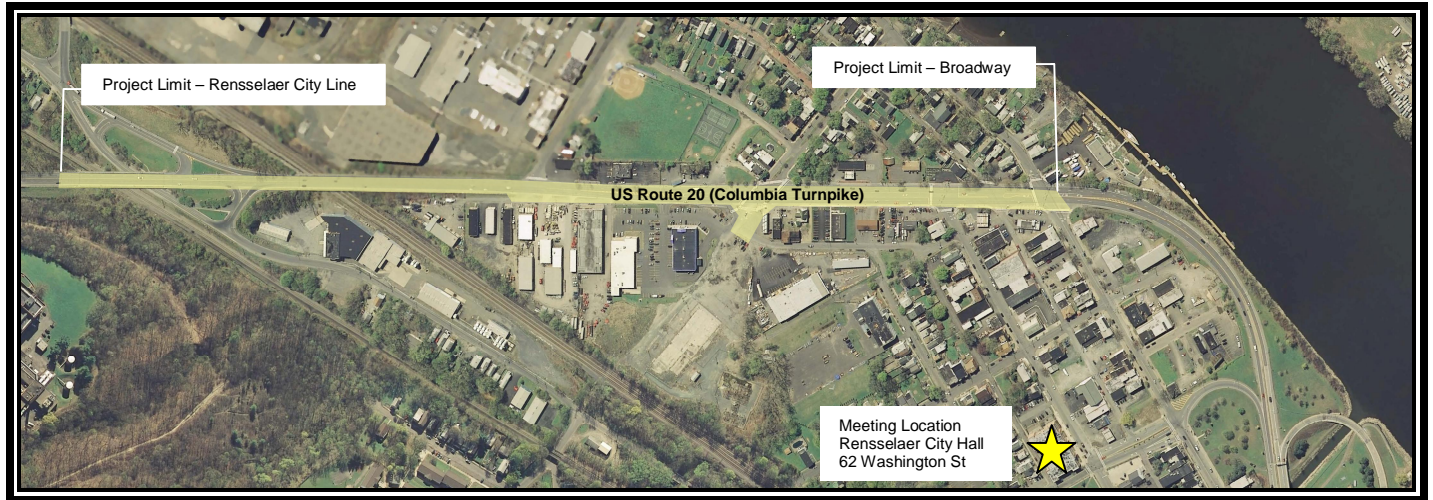

For special needs accommodations, please contact Jessica Sweeney at CHA Consulting, Inc. at (518) 453-4500.

All comments received by April 22, 2013 will be considered in developing the design alternatives. Anyone interested in making a comment may do so at this meeting or by sending written comments to:
